PRODUCT SPOTLIGHT

How the technology works.

AIR TRANSFER TUBE:

A Patented Vacuum-Assist Flush Technology That Delivers A Silent, Powerful Flush

BEFORE FLUSH: When water fills the tank/inner chamber, air is pushed back into the patented air transfer tube. This pressurizes the trapway and primes the toilet for a powerful and quiet flush.

DURING FLUSH: When the flush button is pressed, water leaves the Stealth inner chamber and pulls air from the trapway up through the air transfer tube. This creates a vacuum-assisted pull that accelerates the force of the water and waste flowing through the trapway. Once the flush is complete, the system refills and is primed for the next flush.

LARGE WATER SURFACE:

As the water begins to fill the inner Stealth chamber, air is pushed through the air transfer tube. This **air pressure** exerted in the trapway forces **water** in the bowl to rise, creating a large water spot.

NOISE-CANCELLING TANK:

Equipped with a Fluidmaster 400A Fill Valve... That You Will Never Hear!

We have dramatically reduced the noise of the fill valve. Because such little water is used, the valve is never exposed. It remains submerged canceling out the noise produced.

VIRTUALLY MAINTENANCE FREE:

Stealth Seal VS Standard Flapper

The **360° water flow** moves into the bowl faster and easier than a standard flapper as there is no blockage from objects. The Stealth seal is backed by a hard plastic plate which presses down and **equally distributes pressure** across the seal. This ensures that water does not leak while a standard flapper is prone to leak due to wafering and lack of support.

Standard Flapper

Stealth 2-Piece
Single-Flush Toilet
with Elongated Bowl

	Niagara Stealth	
Toilet Configuration		2-Piece, All-in-One Box
Includes Medium-Duty Plastic Toilet Seat, Wax Ring, Floor Bolts and Caps		Yes
Flush Technology		World's Only Patented 0.8 GPF Vacuum-Assist Flush Technology That Delivers a Quiet, Powerful Flush Every Time. No Flapper to Cause Leaks
Trapway Size		2" Fully Glazed
EPA WaterSense®-Certified		Yes
MaP Rating		800g MaP
Line Carry		50'+
Warranty		Limited Lifetime Warranty

FEATURES

- Quiet, powerful flush delivered with a patented Stealth flush chamber and air transfer system
- Reliable Fluidmaster fill valve
- Fully glazed 2" trapway helps achieve a clear bowl every time
- Two-piece toilet
- Stylish, inconspicuous, and durable flush button
- No flapper to cause leakage

BENEFITS

- One flush thoroughly evacuates the bowl every time, eliminating double flushing
- EZ Height design makes it easier to sit and stand
- No flapper to cause leaks
- Excellent MaP scores for better flushing
